

*Real People. Real God. Real Solutions.*

*Recap:*

*In James 2, the author addresses the issue of favoritism. The issue for the original audience was that they were treating people differently based on what they could obtain from them. They showed favoritism to the rich because of what the rich could offer, but they looked down on the poor because there was nothing the lower class could bring to the table. During the sermon, Paul addressed areas in our lives that we show favoritism or prejudice. What we must do is identify what group of people we have a problem with, recognize that everyone has flaws, and try and look for opportunities to be a servant to all people.*

*1. How did God use the sermon to speak to you?*
