

*Real People. Real God. Real Solutions.*

*Recap:*

*Pride creeps its way into the life of every person. One of the dangerous aspects of pride is that we stop truly depending on God. Our prayer life suffers because deep down we just want to do things on our own. We then make bad choices because we don't ask God's guidance, and we refuse to ask for help when we get into situations that are over our head. Pride is a deeper problem than simply thinking more of yourself than you should. As James 4:6 says, "God opposes the proud, but gives grace to the humble." Do you find that your attitude is in opposition to God?*

*1. How has your prayer life been?*
